### The Global Fund Booth 310 – Exhibition Hall

Community leadership is vital to end HIV and AIDS. Come by the Global Fund Booth, booth 310 to chat with our staff, experience and share the stories that inspire our mission.

*We Are Here: Stories of Community Resistance* provides a glimpse into the lives of Ion from Moldova, Rithy from Cambodia and Teddy from Côte d'Ivoire. All three are working to prevent HIV among people most at risk of the disease, while facing their own immense personal challenges – including the stigma and discrimination that continue to fuel the HIV epidemic today.

Despite being on the forefront of the fight against the disease, community members at the heart of the HIV response are often unrecognized for their contributions. The world has made tremendous progress against HIV thanks to people like Ion, Rithy and Teddy.

The Global Fund booth will share their stories and celebrate their voices.

Come by to share yours.
